

CyberCenturion: the national cyber defence competition for 12-18 year olds

What is CyberCenturion?

CyberCenturion is a competition led by Northrop Grumman, in partnership with Cyber Security Challenge UK. It mirrors the US CyberPatriot competition, part of a major U.S. youth STEM education programme presented by the Northrop Grumman Foundation and created by the US Air Force Association.

The aim of the competition is to engage thousands of talented individuals who have the skills to defend the UK online but no real outlet for showcasing what they can do.

NORTHROP GRUMMAN
